

Is good help hard to find for your hotel?

Deseret Industries can Help!

For the last 10 years Deseret Industries has been turning out exceptional employees for local hotels. Deseret Industries is a training program where associates work in our stores while training in the following fields:

Hospitality	Cashiering	Clerical	IT	Housekeeping
Driving	Laundry	Food Service	Production	Janitorial
Maintenance	And Many Others			

From Logan to St. George we have 21 stores, 1 Humanitarian Center and 1 Manufacturing facility. All together that's over 2,000 associates in training. When they complete their training they are ready to go to work for you!

Why Hire a Deseret Industries Graduate?

- We know our people. Associates spend 1-18 months with us as they complete their training. We work with them every day, helping them gain valuable job skills they can bring to your company. When we recommend an associate it is because they have proven themselves in our stores.
- You don't have to take our word for it. With our Business Partnership program, you can try out any job ready associate **FREE** of charge. We pay their wages (usually for 1-4 weeks) and workers comp, while they work at your location. At the end of the Business Partnership, or anytime during the program, you can hire them on or send them back to us for more training. There is never any obligation to hire or cost to you, the business owner.
- Many of our associates want to work in the hotel industry. Teaming up with the Utah Department of Workforce Services we have associates that have earned a certificate in housekeeping based on Marriott's best practices and endorsed by the Department of Workforce Services Refugee Services Office.
